

# GAURANG PATEL

SOFTWARE DEVELOPER

Email: [patel7483g@gmail.com](mailto:patel7483g@gmail.com) | Phone: +1(306)807-9114 | Location: Calgary, AB | Portfolio: <https://quickpayments.ca/>

## SUMMARY

A seasoned Software Engineer with 4 years of extensive experience, specializing in the development of highly efficient and scalable web applications. Possessing a proven track record in full-stack development, leveraging technologies such as Laravel, Vue.js, and React.js. Dedicated to crafting clean, responsive code and committed to delivering high-quality, impactful solutions that significantly enhance user experience. Notable achievements include the successful conception and development of a comprehensive payment platform, substantial optimization of website performance, and significant reductions in cloud infrastructure costs.

## EXPERIENCE

**Lead Software Architect & Founder** | QuickPayments | Edmonton, AB

*April 2025 – Present*

- Spearheaded the end-to-end development of QuickPayments, a comprehensive payment platform.
- Designed and implemented the core architecture using Laravel, Vue.js, and Inertia.js.
- Integrated advanced payment functionalities including Laravel Stripe Connect and Stripe.
- Utilized Laravel Spark for subscription billing and user management.
- Managed cloud infrastructure on Laravel Cloud for high availability and scalability.
- Responsible for all aspects of development, from conceptualization to deployment.

**Software Developer** | Timeless Veterinary Systems | PEI, Canada

*May 2021 – Present*

- Spearheaded cloud migration to AWS, reducing operational costs by 25%.
- Developed a robust SAAS platform using Laravel and Vue.js, increasing user engagement by 20%.
- Integrated CI/CD pipelines, reducing deployment time by 40%.
- Collaborated with data scientists to implement machine learning models.
- Automated unit testing with Jest, increasing test coverage by 20%.

- Played a key role in developing a RESTful API for mobile applications.
- Designed and implemented a real-time chat application using WebSocket technology.

## SKILLS

- **Methodologies:** Agile, Waterfall, Scrum
- **Programming Languages:** JavaScript, PHP, Python
- **Web Frameworks:** Laravel, Vue.js, React.js, Inertia.js, Bootstrap, Tailwind, JQuery, Express.js
- **Cloud Platforms:** AWS (EC2, S3, RDS), Google Cloud Platform (GCP), Laravel Cloud
- **Version Control:** Git, GitHub
- **Database Management:** MySQL, PostgreSQL, MongoDB
- **Tools:** Visual Studio Code, PyCharm, VS Code, JetBrains
- **Testing Frameworks:** PHPUnit, Pest
- **DevOps:** Docker, GitHub Actions
- **API Development:** RESTful APIs, Web Services, Node.js, Stripe, Pusher, Webhooks

## EDUCATION

**Diploma in Computer Science** | University of Regina, Regina, SK

*September 2020*

## CERTIFICATION

**AWS Certified Cloud Practitioner Certification** | Amazon Web Services

*March 2022*
